CALL FOR PAPERS

The ICECE 2015 : XIII International Conference on Environmental and Civil Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental and Civil Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Analysis of Semi-rigid Connections	Dam Engineering
Applied Computer Vision for Civil and Environmental Engineering	Disaster Preparedness, Response and Recovery
Augmented and Virtual Reality	Distributed Computing in Engineering
Buckling and Stability	Dynamics and Earthquake Engineering
Building Design, Construction, and Operation	Energy for Building
Civil Engineering, Management and Surveying	Environment and Energy
Computer Controlled Site Instrumentation	Environmental Modeling
Conceptual Design Support	Environmental Engineering
Construction Automation and Robotics	Environmental Protection
Construction Engineering and Management	Formfinding, Topology and Structural Morphology
	Foundation Engineering
	Fracture Mechanics
	Geographical Information Systems
