SCOPE AND OBJECTIVE

COST is a framework for the European Co-operation in the field of Scientific and Technical Research, allowing the co-ordination of nationally funded research on the European level. COST aims at ensuring that Europe can hold a strong position in the field of scientific and technical research.

COST Action C25 aims to promote a scientific understanding of life-time engineering and to boost science-based advancement of sustainable construction in Europe.

The Action is focused on an integrated approach to deal with the end-products of construction, clearly targeted at the development of R&D and engineering methods from structural point of view. It aims at providing the construction sector with a new framework and ideas based on the integration of approaches and results of ongoing projects.

CONFERENCE MAIN TOPICS

- Eco-efficient materials and technologies
- Innovative construction systems
- Sustainability Assessment of Constructions
- Adaptation to Climate Change
- Design for Life Cycle and Reuse
- Design and Technologies for Energy Efficiency
- Life-time structural engineering
- Maintenance and Monitoring
- Renovation and Retrofitting
- Construction Waste Management

SCIENTIFIC COMMITTEE

Luís Bragança, Portugal (Chair)
Heli Koukkari, Finland
Rijk Blok, Netherlands
Milan Veljkovic, Sweden
Raffaele Landolfo, Italy
Helena Gervasio, Portugal
Zbigniew Plewako, Poland
Viorel Ungureanu, Romania
Luís Simões da Silva, Portugal
Christian Schaur, Austria
Ruben Paul Borg, Malta

ORGANIZING COMMITTEE

Christian Schaur, Austria (Chair)
Ruben Paul Borg, Malta
Heli Koukkari, Finland
Luís Bragança, Portugal

IMPORTANT DATES

Abstract submission:	by 30 September 2010
Acceptance of Abstracts:	15 October 2010
Submission of Full Papers for Review:	15 November 2010
Acceptance of Papers:	06 December 2010
Submission of Revised Papers:	18 December 2011
Conference dates:	03-05 February 2011

PROCEEDINGS

Authors are invited to submit abstracts of papers on the topics of the conference. The abstracts should clearly highlight the aims and conclusions of the respective studies. Both abstracts and full papers will be reviewed by experts in the field and the procedure will conform to the standards required for peer-reviewed conference papers. All accepted papers will be presented and published.

LANGUAGE

English will be the official language for both oral and printed contributions.

VENUE

University of Innsbruck
Faculty of Civil Engineering
Technikerstrasse 13
A- 6020 Innsbruck, Austria

CONTACTS

Dr. Christian SCHAUR
Tel. : 0043 5223 49 22 93
Fax : 0043 5223 49 22 93 20
Mail: cost-c25@schaur.com
www.cost-c25-innsbruck.com

REGISTRATION FEE

Registration fee will be less than 350 Euro
– information available at the website soon.
